

# Maxibit

*Face to Face—smack—Love it*

## *Ready for the show.*

*I have a tough job to do out there, up front, on stage. Standing in front of all these busy ladies and sirs in the audience, always showing my best face. That is fun. Then all stressed sales people and courier guys kicking me around in a hurry, over and over, around the planet, year after year. That's why I am made to last, whatever happens. Maxibit Quality.*

*Renowned Swedish high-tech design, built by the most skilled craftsmen, made of the very best performance material. Quality at it's best. I am made to stand tall, to serve and sell, over and over. As long as you look after me and protect me from abuse. (Please accept responsibility for how I am being handled and transported, it's not my fault if I am run over by a truck).*

*And I love when you give me a new suit and a little trim now and then. So in short, please be nice to me and I will serve you well. I've been tested in sand and ice, under water and in the air. I don't like to be under water, and I much prefer to be indoors. It's often windy outside.*

*...I'm at my best when I take on V.I.P. presentations under stress, with the most demanding audiences. Big or small, doesn't matter. I just love to stand in the bright light on stage.*

*The catch?*

- Clients. I catch your best Clients.*
- Sorry, you mean on the negative?*
- As far as I know, none, I'm always on your side.*
- But if something goes wrong?*
- Step up and say, I followed all handling instructions, but this Maxibit display had a hiccup. Or, if the freight people or someone else did me wrong, just bring me in to your Maxibit Supplier, and they will fix me for you in a flash. They are eager to make sure that I'm always ready. Ready for the show.*
- Ready to Big You Up. End of Story... Over and Out... Curtain... Love it...*
- Standing Ouations... And back in again...*
- To be continued...*

*Business is not Static.*

*Therefore Maxibit Solutions are sticking out from the crowd. Maxibit is non-static. We are different. We let you exchange, adjust and grow as it suits you. I can tell that you prefer to be in control of your marketing instead of being washed down midstream. This is how simple we work with you, always on your side.
